

SYSTEM DESCRIPTION

The **QC7I PF Twin 7FC** water filtration system features exclusive Fibredyne™II bacteriostatic media that filters sediment down to 0.2 micron* and provides chlorine taste & odor reduction, rust, and sediment. Inlet shutoff valve, flush valve, and

pressure gauges simplify service and monitor operating performance

Quick-change (QC) cartridges make changing cartridges simple and sanitary

Reduces a range of contaminants to help ensure clearer, fresher water for consistently great-tasting beverages

Helps protect equipment to help ensure reliable and efficient operation resulting in reduced maintenance and downtime

NSF/ANSI Standard 42 certified for Bacteriostatic Effects and the reduction of Chlorine Taste & Odor, and Particulate Class I

NSF/ANSI Standard 53 certified to reduce cysts such as *Cryptosporidium* and *Giardia* by mechanical means

INSTALLATION TIPS

Choose a mounting location suitable to support the weight of the system while operating.

Install vertically and allow 21 $\frac{1}{2}$ " (6.35 cm) clearance below the cartridge for easy removal and replacement.

Feed water temperature must not exceed 100°F (38°C).

Do not install where the system could be exposed to freezing temperatures.

Feed water is at
