

SYSTEM DESCRIPTION

Leveraging proprietary technology, the EZ-RO 375/5G system uses Reverse Osmosis (RO) to reduce Total Dissolved Solids (TDS); it produces 375 gal/day (1,419 L/day)* and includes

APPLICATIONS

Combi ovens

Steamers

ZÚÍ ò Û

FEATURES • BENEFITS

Meets combi oven and steamer requirements; helps reduce scale and hardness*, and chlorides†

4CM cartridge provides optimal performance

Compact design fits in tight spaces

Meets NSF requirements for water treatment

Works with combi ovens and in tight spaces

Easy installation and maintenance

Simple cartridge replacement

Reduces scale and hardness, and chlorides

Compact design fits in tight spaces

Meets NSF requirements for water treatment

Numerous patents pending on product design
