Water/Air Temperature Sensor

The sensor can be used as a water or air sensor. The 10k Ohms Temperature Sensor can be used with IntelliCenter, IntelliTouch, EasyTouch, SunTouch and Compool to EasyTouch Upgrade Control Systems.

Sensor Installation

IMPORTANT NOTE: If replacing an existing water temperature sensor, be sure to drill out a 3/8" inch hole into the 3-in or 2-in pipe for the new sensor. The old sensor is likely 5/16-inch, and the new sensor will not fit.

1. The existing water sensor will be located between the filter pump and the primary filter. Remove the sensor.
2. Drill a 3/8-inch hole in the 3-inch or 2-inch pipe.
- 3.
