INTELLICONNECT

CONTROL AND MONITORING SYSTEM

Easy, peasy automation for your pool.

pentair.com/intelliconnect

A
A

Schedule your pool heater settings to adjust the water temperature well before jumping in.

A A

IntelliConnect provides real-time information on the status of the filtration system and other pool equipment, so you can kick it into action when needed: like extra filtration after a storm or cleaning up after a pool party.

A

IntelliConnect pairs well with pool equipment such as pumps, sanitizers, heaters and lighting.

Schedule automatic operation of connected equipment and make changes remotely to suit your schedule.

A A

IntelliConnect helps pool equipment work together using built-in logic intelligence so the pool is running efficiently and effectively.
