

# BERKELEY<sup>®</sup> ABOVE GROUND VF CONSTANT PRESSURE SYSTEM

## SYSTEM FEATURES/BENEFITS:

- ▶ For use as a booster system for domestic or light commercial applications
- ▶ PENTEK INTELLIDRIVE<sup>®</sup> changes pump speed to maintain constant pressure
- ▶ Can be used with a smaller supply tank
- ▶ Uses single-phase input to power three-phase pumps.

NOTE: For above ground applications, ensure distance between motor and PENTEK INTELLIDRIVE is 25 feet or less.
