

The CTJ series pumps feature heavy duty cast iron construction and are offered in high head models, with Noryl or silicon bronze impellers.

APPLICATIONS

FEATURES

1/2 HP through 2-1/2 HP: High head models, heavy-duty motors, easy serviceability, and four-position discharge.

Drain Port: Provided for easy winterizing.

Performance Range: Up to 150'+ of head, with capacities to over 100 gpm.
